

Dear Valued Customers,

2026/08/03  
IOL & Medical Device Division

## Notice Regarding Product Lifecycle and End of Support Information for Medical Device Product

Thank you very much for using our products. This notice is to inform you of the timing of **End of Life (EOL)** and **End of Support (EOS)** for our medical device software/programs.

- EOL, EOS, and Our Basic Policy for Our Medical Device Software/Programs

|-------------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Before EOL                    | We continuously monitor publicly available vulnerability information in the market and, when deemed necessary, will take appropriate actions such as providing updates and/or publishing vulnerability information on our website.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| After EOL<br>(End of Life)    | <p>After the end of production of the applicable product, EOL will, in principle, be set after the following number of years have elapsed:</p> <ul style="list-style-type: none"><li>For products with an expected service life of 5 years: <b>8 years</b></li><li>For products with an expected service life of 8 years: <b>10 years</b></li></ul> <p>For certain products, <b>EOL may be assigned not as a uniform date, but on a per-serial-number and/or per-version basis</b>. Please refer to the table on page 3 and onward for details.</p> <p>« Measures During the Period from EOL to EOS »</p> <p>After the EOL date has passed, we will discontinue product modifications and updates intended to address software vulnerabilities.</p> <p>We will continue to monitor publicly available vulnerability information in the market and, when deemed necessary, will provide information such as vulnerability details and mitigation/workaround measures on our website.</p> |
| After EOS<br>(End of Support) | <p>EOS will, in principle, <b>be set at six (6) months after EOL</b>. For certain products, <b>EOS may be assigned not as a uniform date, but on a per-serial-number and/or per-version basis</b>. Please refer to the table on page 2 and onward for details.</p> <p>« Measures During the Period after EOS »</p> <p>We will discontinue providing information such as mitigation/workaround measures related to vulnerabilities.</p> <p>Because no security updates will be provided for the affected product(s) to address newly identified vulnerabilities, we recommend that you consider a planned replacement of the device(s) in order to reduce cybersecurity risk.</p>                                                                                                                                                                                                                                                                                                        |

**Important Notice:**

Depending on related products (e.g., operating systems, components, peripherals), applicable laws and regulations, or other factors, if we determine that it is unavoidable, a product may reach EOL/EOS without prior notice or with only short notice.

Please note that the EOL/EOS information provided on this page may differ from the terms or status of any hardware maintenance contract or maintenance services.
